

## AGY Holding Corp. Announces 2008 Second Quarter Results and Bondholder and Investor Conference Call

**AIKEN, SOUTH CAROLINA - (August 11, 2008)** – AGY Holding Corp. (“AGY” or the “Company”) reports its 2008 second quarter fiscal results.

- Second quarter 2008 revenue of \$64.1 million reflects a 32% increase over the second quarter of 2007 and an 11% increase over the first quarter of 2008.
- Income from operations for the second quarter of 2008 was 43% higher than the second quarter of 2007 due to a favorable product mix and the volumes associated with the Company's acquisition in late 2007 of Owens Corning's Continuous Filament Mat business.
- Adjusted EBITDA for the second quarter of 2008 improved 51% when compared to the second quarter of 2007 and 33% over the first quarter of 2008 as a result of the continuation of AGY's strategic initiatives.

### Summary Financial Performance (\$ in millions)

See Appendix D where EBITDA and Adjusted EBITDA are defined and reconciled from net income (loss) determined under GAAP.

(1) Management uses EBITDA and Adjusted EBITDA, which are non-GAAP financial measures, to measure operating performance.

(2) Adjusted EBITDA margin is calculated by dividing Adjusted EBITDA by net sales.

Net sales of \$64.1 million reflect an increase of \$15.5 million, or 32%, in the second quarter of 2008, when compared to the second quarter of 2007 as a result of broad based gains in most market segments. Defense market sales increased by over 116% for the second quarter of 2008 when compared to the second quarter of 2007 due to higher sales of Advanced Materials in support of key programs including the Mine Resistant Ambush Protected vehicles and associated Explosively Formed Penetrator kits. Aerospace market sales grew by 23% in the second quarter of 2008 as compared to the second quarter of 2007 as a result of OEM and retrofit requirements for lighter weight, high-performance composite materials. Additionally, the second quarter results of 2008 included the impact of the Continuous Filament Mat (“CFM”) acquisition completed in October 2007, which contributed \$8.3 million of revenue for the quarter. Net sales were \$122.0 million for the first six months of 2008, representing an increase of approximately 41% over the comparable period of 2007, due to continued strength in the defense, electronics and aerospace markets, as well as the impact of the CFM acquisition.

Income from operations for the second quarter of 2008 was \$7.3 million, or 11.4% of net sales, compared to \$5.1 million, or 10.5% of net sales, reported in the second quarter of 2007. Net income for the second quarter of 2008 was \$0.8 million, compared to a net loss of \$0.03 million reported for the comparable quarter of 2007. Adjusted EBITDA, a measurement management uses to measure operating results, was \$14.2 million, or 22.2% of net sales for the second quarter of 2008, compared to \$9.4 million, or 19.3% of net sales, reported in the comparable quarter of 2007. A more profitable product mix resulting from higher volumes in the defense and aerospace markets and incremental revenue associated with the CFM acquisition favorably impacted profitability during the second quarter of 2008. However, these gains were partially offset by costs associated with expanding AGY's manufacturing capacity in support of market demand, higher alloy lease costs, inflationary pressure in raw materials and increased selling, general and administrative expense necessary to support business development activities associated with strategic growth initiatives.

Income from operations for the first six months of 2008 was \$11.6 million, or 9.5% of net sales, compared to \$6.8 million, or 7.9% of net sales, reported for the comparable period of 2007. The net loss for the six months ended June 30, 2008 was \$0.6 million, compared to a net loss of \$2.2 million reported during the first six months of 2007. Adjusted EBITDA was \$24.9 million for the first six months of 2008, representing an increase of approximately 36% over the comparable period of 2007. Increased volumes, a favorable product mix and selected price increases added to profitability in 2008. These gains were partially offset by costs associated with strategic initiatives, non-recurring expense due to a furnace disruption at the Company's Aiken, SC facility, inflationary pressures in certain raw materials and higher alloy lease costs.

The Company's cash balance as of June 30, 2008 was \$1.5 million. Cash provided by operating activities was \$13.4 million for the six months ended June 20, 2008, while investing activities used \$30.1 million, including the purchase of \$25.1 million of alloy, which was necessary to support production increases associated with defense market requirements. Cash borrowings under the Company's revolving credit facility were \$13.1 million as of June 30, 2008.

"We are pleased with the success of our strategic initiatives through the first half of 2008, as we have experienced a 41% increase in revenues and generated approximately 36% more Adjusted EBITDA than in the first half of 2007," remarked Doug Mattscheck, President and Chief Executive Officer. "We continue to focus on expanding our global markets, developing applications that target advanced materials requirements, and increasing production capacity through lean initiatives and technology investments.

### AGY Holding Corp. and Subsidiaries

#### Reconciliation of Net Income to EBITDA and Adjusted EBITDA

The Company's management uses EBITDA and Adjusted EBITDA, which are non-GAAP financial measures, to measure operating performance. The most directly comparable financial measure determined under GAAP is net income (loss), the calculation of which for the three months and six months ended June 30, 2008 and 2007 is set forth on Appendix B.

EBITDA and Adjusted EBITDA (which are defined below) are reconciled from net income (loss) determined under GAAP as follows (dollars in millions):

	Three Months Ended		Six Months Ended	
	June 30,		June 30,	
	2008	2007	2008	2007
<b>Statement of operations data:</b>

	Three Months Ended		Six Months Ended	
	June 30,		June 30,	
	2008	2007	2008	2007
EBITDA	\$ 10.7	\$ 7.7	\$ 18.4	\$ 13.7
<b>Adjustments to EBITDA:</b>

Non-cash compensation charges	0.2	0.3	0.6	0.6
Management fees	0.2	0.2	0.4	0.4
Gain on the sale of assets	(0.9)	(0.2)	(0.9)	(0.2)
Anderson facility one-time exit costs	0.6	-	0.6	-
Union signing bonus and others	-	-	-	0.3
Adjusted EBITDA	\$ 14.2	\$ 9.4	\$ 24.9	\$ 18.3

EBITDA is defined as earnings before interest, taxes, depreciation and amortization. EBITDA is a non-GAAP financial measure used by management to measure operating performance. EBITDA is not a recognized term under GAAP and does not purport to be an alternative to net income as a measure of operating performance or to cash flows from operating activities as a measure of liquidity. Additionally, EBITDA is not intended to be a measure of free cash flow available for management's discretionary use, as it does not consider certain cash requirements such as interest payments, tax payments and debt service requirements. Management believes EBITDA is helpful in highlighting trends because EBITDA excludes the result of decisions that are outside the control of operating management and can differ significantly from company to company depending on long-term strategic decisions regarding capital structure, the tax jurisdictions in which companies operate and capital investments. In addition, management believes EBITDA provides more comparability between AGY's historical results and results that reflect purchase accounting and changes in AGY's capital structure. Management compensates for the limitations of using non-GAAP financial measures by using them to supplement GAAP results to provide a more complete understanding of the factors and trends affecting the business than GAAP results alone. Because not all companies use identical calculations, these presentations of EBITDA may not be comparable to other similarly titled measures of other companies.

Adjusted EBITDA is a non-GAAP financial measure which is defined as EBITDA further adjusted to exclude unusual items and other adjustments permitted in calculating covenant compliance and calculated in the same manner as consolidated cash flow under the indenture governing the Company's senior second lien notes, which is used in calculating its Fixed Charge Coverage Ratio under the indenture.
